

Registration and cost:

The registration deadline is 23.05.2016.
Online registration under www.standort-tirol.at/wtz

Please note: Limited number of participants!
First come - first serve!

This event is free of charge.

Wissenstransferzentrum West

The Knowledge Transfer Centre West (WTZ West) has defined its objectives as being to employ joint action and steps in order to sustainably intensify and professionalise knowledge transfer to tap latent commercial opportunities, to intensify and expand its cooperation with business and society as a whole, to pursue multi-disciplinary approaches and to leverage possible synergies so as to reach these objectives.

Particular attention is focussed on the exploitation and optimisation of commercial potential in the areas of information and communication technologies, physical science as well as the biomedical sciences. The humanities, social and cultural sciences, the development of art and arts-based research and art involve the implementation of diverse strategies relating to sustainable cooperations, multidisciplinary work, innovation processes as well as action in the areas of entrepreneurship and future-oriented copyright-related issues.

Eine Initiative des Wissenstransferzentrum West

Die Wissenschaftszentren werden unterstützt von:

MEDIZINISCHE
UNIVERSITÄT
INNSBRUCK

Die Veranstaltung wird gemeinsam mit dem Cluster Life Sciences Tirol durchgeführt.

Industry Standards Seminar Series

We are inviting you to a new series of seminars under the common title „Industry Standards“.

With these seminars we will address the Industry Standards Way of Thinking, Working, Modelling, Implementation and Governance.

Medical University of Innsbruck
Standortagentur Tyrol
CAST - Center of Academic Spin-Offs Tyrol

Good laboratory Practice (GLP)

The necessity to develop patterns and results that can be replicated and implemented by any organization requires „Good Laboratory Practice“.

Is your research activity well thought, well planned, well documented? What can we learn from Industry's way of thinking, working, modelling or implementing things? Good Laboratory practise – GLP - adds value to your research! Let's learn more about it!

This seminar will introduce the theory, practice and importance of GLP and describe how to handle documentation of scientific work to integrate Industry Standards into Academic Research.

Target audience:
PhD Students, Postdocs, Technicians, young researchers

Date: 25.05.2016
Time: 14:00 - 16:30
Location: CCB, M.01.470

Programm:

- 14:00 Opening - Dr.ⁱⁿ Natalia Schiefermeier-Mach
CAST-Center for Academic Spin-Offs Tyrol
- 14:15 Introduction to Good Laboratory Practise:
Theory and practical experience
Dipl.-Ing. Astrid Neumann,
Head of Bioanalytics, Bionorica research GmbH
Discussion
- 15:15 Coffee Breack
- 15:30 Inventor's notebook: How to do a really good
documentation of your scientific work!
Sellemond
Discussion
- 16:30 Get 2 Gether

From Idea to Realization

4 extra ordinary ideas!
4 brilliant researchers!
4 Start-ups!

In this seminar the founders of 4 different Life Science Start-ups (Mobile Health, Med-Tech and Pharmaceutical) will talk about their ideas, introduce their Start-ups and address the issues:

„How to bring basic research into Market“
„How much does it cost“
„How long does it take“
„Official regulations (official burdens) to over come“

Target audience:
PhD Students, Postdocs, Technicians, young researchers

Date: 28.06.2016
Time: 14:00 - 17:30
Location: CCB, M.01.490

Programm:

- 14:00 Opening - Dr.ⁱⁿ Natalia Schiefermeier-Mach
CAST-Center for Academic Spin-Offs Tyrol
- 14:15 Agnes Grünerbl
(MyProCure / Animys)
- 15:00 Christian Dorfmueller
(HeaRT)
- 15:45 Coffe Breack
- 16:00 Holger Bock
(ehemalige Ugichem, jetzt CAST)
- 16:45 Martin Werle
(Cyprumed)
- 17:30 Get 2 Gether
