

The Department of Public Health and Health Technology Assessment (HTA),

UMIT – UNIVERSITY FOR HEALTH SCIENCES, MEDICAL INFORMATICS AND TECHNOLOGY

in Hall i.T. / Innsbruck, Austria (www.umat.at)

is searching for a Public Health/ Health Technology Expert focusing on Health Economic Evaluation

Field of application includes economic evaluation, econometrics, pharmacoeconomic modeling, rationing and prioritizing, considering ethical, legal, economic and social aspects.

UMIT is an internationally recognized private university dedicated to health & life sciences and also a partner of the ONCOTYROL Center for Personalized Cancer Medicine (www.oncotyrol.com).

The Department of Public Health focuses on international research, excellence in teaching and policy implementation.

Responsibilities:

- leading the program for health policy, administration, economics and law;
- performing scientific analysis and publication outcome;
- working on, contributing to and applying for international research projects;
- involvement and contribution to existing (interdisciplinary) research projects
- scientific administration and development of existing education and training;
- cooperation with the international research centre ONCOTYROL Center for Personalized Cancer Medicine
- supervising dissertations in the area of Public Health, Health Economics and HTA
- contribution to the development of new master programs, certified courses, etc.

Qualifications:

Successful candidates will hold

- a Habilitation or a Habilitation-equivalent or a PhD preferably in economics or in an equivalent field
- will have experience in leading international research projects and in publishing in international, peer-reviewed journals; additional qualification or experience in quantitative methods in public health/biomedicine preferred.
- commitment to interdisciplinary team-oriented research
- experience in project management
- excellent communication skills in English
- experience in statistical, econometrical and modeling analysis

Employment will initially be for two years, with a possibility for extension. The salary follows the Austrian wage agreement for university employees and can be overpaid due to special qualification und target agreement.

The Department is committed to advancing employees who demonstrate excellent performance.

UMIT is dedicated to promoting the role of women in science, and therefore expressly invites women to apply. Handicapped candidates with equal qualifications and personal aptitude will also be prioritized.

Further information can be obtained from the website at www.umat.at.

Interested candidates should apply until June 15, 2012 with a cover letter, CV, publication list, educational certification preferably by email to:
