

# SAVE THE DATE

Workshop  
**LIGHTSHEET FLUORESCENCE MICROSCOPY**

September 17 - 18, 2018  
Medical University of Innsbruck, CCB

Lightsheet Fluorescence Microscopy (LSFM) is gaining more and more impact in the field of biological imaging. A **wide range of biological samples** already profit from this **very sensitive and fast technique**.

Learn more about **new technology developments, clearing methods**, sample preparation and the **latest software applications** in this workshop by ZEISS and arivis AG.

We are looking forward to an inspiring workshop with you!

## **Registration:**

To register for the workshop and for detailed information on the program, just follow this link:
