15th International Symposium on Pteridines and Folates

May 9 - 13, 2012
Antalya, Turkey

<http://www.pteridinesfolates2012.org>

The symposium will focus on the topic “conjugated and unconjugated pteridines in life sciences, biology and chemistry”. The symposium will provide clinicians, nutritionists, chemists, and specialists fascinating insights, practical expertise and the latest scientific knowledge in the field.

The symposium is attracting the leading experts in the field of pteridines and folates. The programme consists of plenary lectures, oral presentations and two poster sessions.

From the submitted abstracts, oral and poster presentations will be selected by the scientific committee and selected significant papers will be offered publication as full-papers in the journal Pteridines.

On behalf of the Organizing Committee, we invite you to visit the symposium and promise you a stimulating scientific meeting. We are looking forward to your participation and to welcoming you here in Antalya, Turkey, for a few days.
