

# Tenure Track Position according to § 99 (5) Universities Act for multimodal imaging of osteologic pathologies

at the Department of Orthopaedics and Traumatology of the Medical University of Innsbruck  
(full-time position)

The Medical University of Innsbruck, located in the heart of the Austrian Alps, is the largest and most important medical research and education facility in the West of Austria. We currently teach and train over 3,600 students in seven Bachelor-, Master- and Doctoral Programs, most of them in medicine. A dedicated staff of more than 2,200 employees covers all relevant fields from basic research to clinical sciences.

We offer qualified candidates a position according to the § 99 (5) Austrian Federal Act on the Organisation of Universities and their Studies (Universities Act 2002 – UG) and agreements based on rules laid down in a general contract for employees of Austrian Universities (‘Universitätskollektivvertrag’) as announced in: Mitteilungsblatt der Medizinischen Universität Innsbruck vom 12.06.2019, Studienjahr 2018/2019, 45. Stk., Nr. 177. More details in English are available upon request.

## Your profile

### Requirements:

- PhD or comparable qualification
- excellent research and publication activity
- potential to head an independent scientific research group
- experience in the conception, acquisition and management of third-party funded research projects
- teaching experience as well as the willingness to get involved in the further development of medical studies
- willingness to participate in interdisciplinary and translationally oriented research
- completed specialist training in multimodal imaging and analysis
- german language skills, minimum level B2 according to the European reference framework

### Your main task:

- teaching and supervising students
- the establishment of a research group in the field of multimodal imaging
- acquisition and management of nationally and internationally funded research projects
- development of a multimodal imaging platform for the diagnosis and monitoring of osteological pathologies

### We offer:

- a competitive start-up package including guaranteed annual base funding
- a varied and largely independent job in a highly attractive work and social environment in a most liveable city
- a dynamic research environment
- numerous further education and development opportunities
- support through central service facilities
- various attractive additional company benefits (including but not limited to excellent support through our service-oriented administration, childcare support, dual career consultation, and an inhouse pension fund in addition to the statutory social insurance)

The current position (full-time employment) commences with a 6-year contract based on a mutually accorded qualification agreement. If the qualification goals are met following a positive evaluation, the contract can be extended indefinitely with the job title of ‘associate professor’.

A salary based on group B1 (or A2 after fulfillment of a qualification agreement based on a positive evaluation) of the collective contract (‘Universitätskollektivvertrag’) for Austrian university employees.

## Application

The complete application documents (see Application Guidelines under: <https://www.i-med.ac.at/karriere/laufbahn.html>) must be sent digitally (as pdf files) in German or English to the following e-mail address: [tenu-retrack@i-med.ac.at](mailto:tenu-retrack@i-med.ac.at)

Deadline for submissions is 08.05.2024

Non-EU citizens must fulfil the relevant Austrian legal requirements regarding residence and work permits.

Applicants are not entitled to compensation for travel expenses with reference to this tender.

The Medical University of Innsbruck is an equal opportunity employer. We seek candidates who embrace and reflect diversity and encourage minorities/women/individuals with disabilities to apply.

In case of inconsistencies between the German and the English versions of this tender, the legally binding version is the German one.
