

31st August to 3rd September 2022
Magdeburg, Germany

FIRST ANNOUNCEMENT – SAFE THE DATE!

The organizing committee is pleased to announce that the international XI-ZOMES conference on PCI complexes: proteasome, COP9 signalosome and eIF3, will be held in Magdeburg, Germany, from 31st August to 3rd September 2022.

Program overview:

- Wednesday: Arrival, 05.00 pm start of lectures and welcome program
- Thursday-Friday: Lectures and events
- Saturday: Lectures, introduction of the next venue, departure 11.30 am

Main topics will include:

- PCI-complexes, structures and mechanisms
- ZOMES and DUBs
- ZOMES and proteostasis
- Cross talk between sister ZOMES
- ZOMES and cell physiology (sponsored by RTG 2408)

XI-ZOMES will take place in Magdeburg, famous for its medieval history and today characterized by manifold architecture, green parks and the river Elbe. The venue will be the Hotel Maritim, which is located in the city center and close to the city's main railroad station.

More information will be available soon on the conference website. We are looking forward to seeing you in Magdeburg and are persuaded that XI-ZOMES will become a successful event.

Best regards

XI-Zomes Organizing Committee
