

14th
**Göttingen
Meeting**
of the
**German
Neuroscience
Society**
goes virtual on
March 22, 2021

PLENARY LECTURES

Opening Lecture

Sarah Tabrizi | London, UK

Molecular therapies for Huntingtons disease and other neurodegenerative diseases

Translational Neuroscience Lecture of the Gertrud Reemtsma Foundation

Angela Vincent | Oxford, UK

Clinical and experimental studies of autoantibodies to CNS membrane receptors and associated proteins: many questions still unanswered

Hertie Foundation Lecture

David Keays | Wien, Austria

The search for the magnetosensors in pigeons

Norbert Elsner Lecture

Paul H. Taghert | St. Louis, USA

How the fly brain encodes time

Armin Schram Lecture

Marlene Bartos | Freiburg, Germany

Emergence of memory engrams in the hippocampus

Ernst Florey Lecture

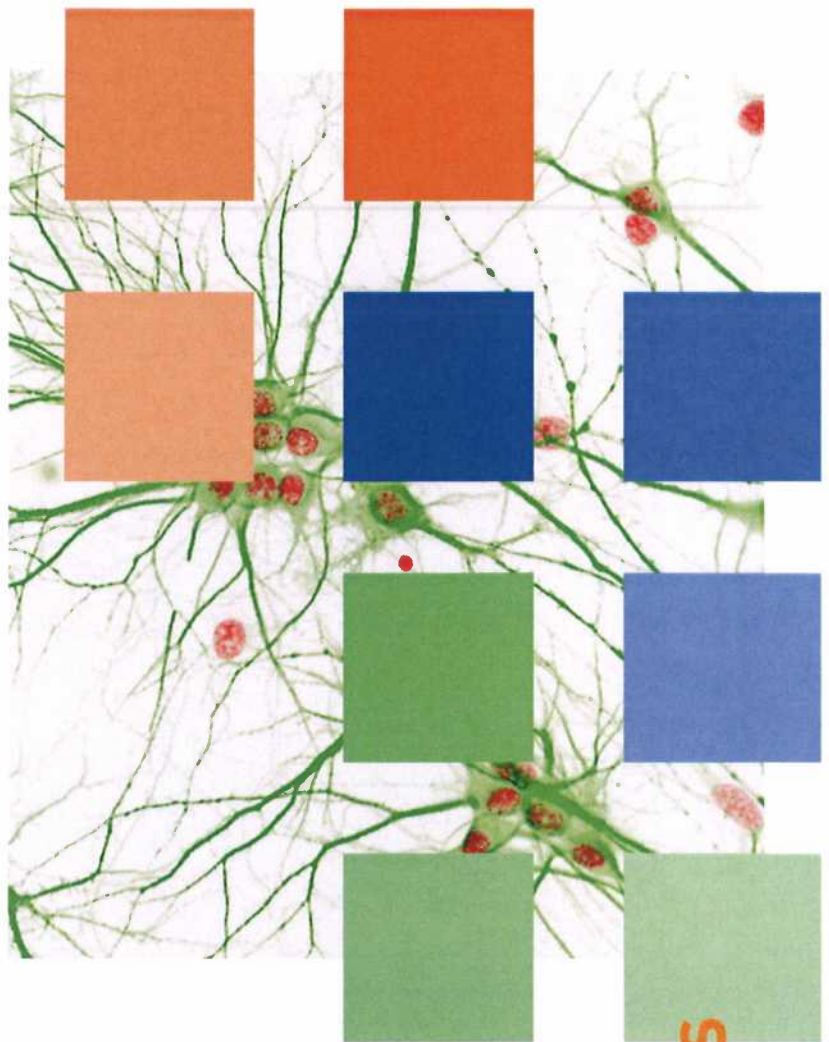

Brenda Eskenazi | Berkeley, USA

The impact of organopesticides on mental health

Otto Creutzfeldt Lecture

Nanna MacAulay | Copenhagen, Denmark

The elusive mechanisms of CSF secretion - we know so much, but understand so little

Deadline: December 14, 2020
www.nwg-goettingen.de/2021

Registration, Abstract Submission, and Stipend Application
The deadline for submission of poster abstracts, early registration, and stipend applications is **December 14, 2020**

For information on abstract submission and registration please visit the meeting's website: www.nwg-goettingen.de/2021

Chair

Prof. Dr. Albert C. Ludolph

Local Organizer

Prof. Dr. Martin Göpfert
Universität Göttingen
Zelluläre Neurobiologie
Julia-Lermontowa-Weg 3
37077 Göttingen
mgoepf@gwdg.de

Stipends

The German Neuroscience Society provides stipends for young qualified investigators. Applications must be submitted via the website of the German Neuroscience Society including

- a short CV
- a copy of the abstract
- a list of publications
- a letter of recommendation from a senior scientist
