

## Lecture Series WS 09/10

Organized by graduate students of  
PhD Program SPIN (Signal Processing in Neurons)

MZA Building

**Tu, October 13**

Lecture hall

5:15 p.m.

**Paola Pedarzani**

University College, London

***Multiple signalling roles of different  
calcium-activated potassium channels  
in hippocampal neurons***

**Th, October 29**

SR 1

**03:00 p.m.**

**Tobias Bonhoeffer**

Max-Planck-Institute, Munich

***How experience changes the  
circuitry of the brain***

**Tu, January 19**

Lecture hall

5:15 p.m.

**Gerd Kempermann**

Center for Regenerative Therapies, Dresden

***Genes and environment in the control of  
adult neurogenesis***
