15.12.2020: Newsletter 34-20: Thank you for your trust

Fellow scientists,

as by today noon, the period of the Works Council 2016-2020 lead by Wolfgang Freysinger (MUI Science) has ended.

From now on, Martin Tiefenthaler will head the Works Council, Gabriele Gamerith will be his first deputy. Wolfgang Freysinger will serve as second deputy and represent MUI Science.

On behalf of the Works Council and especially MUI Science it is now appropriate to express our gratitude for the trust we were endowed with during the last four years. All of us served you and our university proudly with dedication.

Let me thank all past members of the Works Council, and Mrs. Lorber and Mrs. Herrnegger of the Works Council secretariate, for their efforts in the last four years.

Please allow me a personal statement:

The last four years were extremely challenging for me, but very rewarding in every aspect. Please accept my personal gratitude for this.

50 % of the votes for MUI Science in the past elections are a strong mandate: we will be here for you in the future!

All the best & stay safe,

Wolfgang Freysinger
Head
Works Council
