

Priv.-Doz. Dr. Kerstin Bellaire-Siegmund

Personal information

Date of Birth April 28th, 1977
Place of Birth Frankfurt am Main (Germany)
Nationality German
Marital status married, one child
Business Address: Institute of Translational Cell Genetics
Medical University Innsbruck
Schöpfstraße 24
A-6020 Innsbruck, Austria
Contact: Telephone: +43 (0) 512 9003-70521
E-mail: kerstin.siegmund@i-med.ac.at

Main area of research

- T cell immunology with focus on homeostasis and immune regulation
- Cellular and molecular mechanisms of T cell responses in context of tumor immunity
- Signaling, differentiation and migration of T cell subsets

Education

11/2018	Habilitation (Venia docendi) in Immunology Medical University Innsbruck (Austria) Thesis: "The Roles of Protein Kinase C Theta and Coronin 1A in T Cell-Mediated Immune Responses."
04/2002 - 09/2005	Dr. rer. nat. in Immunology Humboldt-University Berlin (Germany) Thesis: „Migration und suppressive capacity of regulatory T cell subsets.“
10/1996 - 12/2001	Diploma in “Humanbiologie” (Biomedical Sciences), Philipps-University Marburg (Germany) Thesis: „Identification of the targeting signal of the sulfhydryl oxidases Erv1p und Erv2p in yeast.“

Positions held and research experience

Since 11/2012	Senior scientist, Medical University Innsbruck , Austria, Division of Translational Cell Genetics (Univ.-Prof. Dr. G. Baier) 02/2014 – 10/2017 Lise Meitner position (funded by the FWF) 01/2016 – 06/2016 Marginal employment (2.5h / week) 06/2015 – 06/2016 Maternal leave
08/2011 – 09/2012	Postdoctoral scientist, University of Calgary , Canada Snyder Institute for Chronic Diseases (P. Kubes, PhD)
06/2009 – 06/2011	Postdoctoral scientist, University of Basel , Switzerland Biocenter (Univ.-Prof. Dr. J. Pieters) 10/2010 - 12/2010 visiting scientist (collaboration), University of Calgary, Canada, Snyder Institute for Chronic Diseases (P. Kubes, PhD)
12/2008 - 04/2009	Scientist, 4-Antibody AG , Basel, Switzerland
10/2005 - 11/2008	Postdoctoral scientist, Swiss Institute of Allergy & Asthma Research , Davos, Switzerland, Department of Molecular Immunology (Dr. C. Schmidt-Weber)
04/2002 - 09/2005	PhD student, Charité / Humboldt University Berlin , Germany Department of Experimental Rheumatology (Univ.-Prof. Dr. A. Hamann)
05/2000 – 07/2000	Internship (Cell biology), Yale University , USA (I. Mellman, PhD)
02/1997 - 04/1997	Working student, Hoechst AG , Germany
07/1996 - 08/1996	Department of metabolic processes

Teaching Activity (lectures and practical courses besides bachelor, master and PhD supervision)

since 2020	Life science practical course “ genetische Immun-Onkologie ”
since 2018	Lectures as part of MM 1.1 “ Versuchstierkunde ” (Mol. Med. Bachelor) Practical course PM3 Immunity and Infection (Mol. Med. Master)
since 2016	Lectures as part of the “ Basic course for animal experimentation ”, Module “Management of a laboratory rodent colony”
since 2014	Lectures as part of the “ Basic course for animal experimentation ”, Modules “Killing and Sampling” and “Application of substances”

Major third party funding, Scholarships and Awards

2021 - 2025	Stand-Alone Projects, FWF (P 34368): 401 079 Euros
2020 - 2022	1000 Ideas Program, FWF (TAI 88B): 127 027 Euros
2014 - 2015	Lise Meitner Position, FWF (M 1636-B23): 154 540 Euros
2013 - 2015	MUI-Start project (2013042002): 29 999 Euros
2006 - 2008	Marie Curie Fellowship of the European Commission (CD8-TREAT): 173 831 Euros

Original research publications in peer reviewed journals (only first and corresponding author)

Koutník, J.; Leitges, M. and **Siegmund, K.** T cell-intrinsic Protein Kinase D3 is dispensable for the cells' activation. *Front. Immunol.* **2022**; doi: 10.3389/fimmu.2022.1049033

Koutník, J.; Klepsch V.; Pommermayr M.; Thuille N.; Baier, G.; **Siegmund, K.** A MLR-Based Approach to Analyze Regulators of T Lymphocyte Activation In Vivo. *Int. J. Mol. Sci.* **2022**, 23(10), 5337; doi: 10.3390/ijms23105337

Koutník, J.; Neururer, V.; Gruber, T.; Peer, S.; Hermann-Kleiter, N.; Olson, W.J.; Labi, V.; Leitges, M.; Baier, G.; **Siegmund, K.** Addressing the role of PKD3 in the T cell compartment with knockout mice. *Cell communication and signaling : CCS* **2022**, 20, 54, doi:10.1186/s12964-022-00864-w.

Siegmund, K.; Thuille, N.; Posch, N.; Fresser, F.; Leitges, M.; Baier, G. Novel mutant mouse line emphasizes the importance of protein kinase C theta for CD4(+) T lymphocyte activation. *Cell communication and signaling : CCS* **2019**, 17, 56, doi:10.1186/s12964-019-0364-0.

Siegmund, K.; Thuille, N.; Wachowicz, K.; Hermann-Kleiter, N.; Baier, G. Protein kinase C theta is dispensable for suppression mediated by CD25+CD4+ regulatory T cells. *PloS one* **2017**, 12, e0175463, doi:10.1371/journal.pone.0175463.
