

## Curriculum Vitae: Natascha (Hermann)-Kleiter:

**Personal details:** Title: Assoc. Prof. Dr. rer. nat.

Nationality: Austrian

Children: two

**Contact:** Department for Pharmacology and Genetics

Division of Translational Cell Genetics

Innsbruck Medical University,

Peter-Mayr Str. 1a; A-6020 Innsbruck, Austria/Europe

Tel.: +43(0) 512/9003-70528;

Fax: +43 (0) 512/9003-73510;

Email: [natascha.kleiter@i-med.ac.at](mailto:natascha.kleiter@i-med.ac.at)

## Education and academic career

- 2017 - **Associate Professor** (Tenured) at the Med. Univ. Innsbruck, Austria  
2014- 2017 Assistant Professor at the Medical University Innsbruck  
2013 **Venia Docendi** (Habilitation) at the Medical University Innsbruck  
2011- 2013 Senior Postdoc– project leader (Austria Science Fund; FWF P23537-B13) Cell Genetics Unit (G. Baier) Medical University Innsbruck  
2002-2011 Postdoc: Cell Genetics Unit (G. Baier) Dep. of Medical Genetics, Molecular and Clinical Pharmacology Medical University Innsbruck – with part time  
1999 - 2002 birth of my two children- maternal break  
1996 - 1999 Postdoc: Institute for Molecularbiology, Austrian Academy of Science, Salzburg  
1993 -1996 **Ph.D.** in Zoology; with Distinction  
Institute for Molecularbiology, Austrian Academy of Science, Salzburg  
1988-1993 **M.Sc.** (Zoology); with Distinction, University of Salzburg; Austria

## Research projects

- 2021-2024 Principal investigator: Austria Science Fund; FWF DOC 82 doc.fund  
2016-2020 Principal investigator: “NR2F6 governs immune defense against microbial pathogens” Austria Science Fund; FWF P 28694  
2015-2019 Principal investigator: MCBO FWF W 11 Doktoratskollegs (DKs)  
2013-2015 Principal investigator: Österreichische Krebshilfe ÖKKT  
2011- 2014 Principal investigator: “Orphan receptor NR2F6 as a negative regulator of T cell effector functions” (Austria Science Fund; FWF P23537-B13)  
2011-2012: Project leader: (MUI-Start1: 2010011001)

## Patents

4. (WO/2010/004052) AGONISTS OF NR2F6 FOR IMMUNOSUPPRESSION
5. (WO/2010/004051) ANTAGONISTS OF NR2F6 FOR AUGMENTING IMMUNITY

## Honors and awards

- 2018 received the Prof. Brandl Prize  
2009 received the prize of the Capital City Innsbruck, Austria  
2008 received the Dr. Otto-Seibert Prize

## Funding:

appr. total 1.150.000€

**Career-related activities and memberships:** ÖGBMT, ÖGAI, ÖKKT

## Reviewing activities:

e.g. J. of Immunology, J. of Clinical Immunology; J. of Experimental Haematology& Immunology, J. of Immunotherapies; Cell and Mol. Medicine; Scientific Reports.
