Augenheilkunde  
Anichstr. 35  
6020 Innsbruck

MEDIZINISCHE  
UNIVERSITÄT

INNSBRUCK

May-Britt Tessem obtained her Ph.D. in Neuroscience in 2006. She worked as a postdoctoral scientist at the University of California at San Francisco and NTNU Trondheim. For her project ProstOmics, May-Britt Tessem received the European Research Council starting grant in 2017.

Dr. Tessem is interested in metabolic pathways in prostate cancer and is an expert in metabolic and transcriptomic profiling. Her research is focused on the influence of stromal tissue on tumor metabolism.
