Drug Discovery Seminar Series

As part of the Knowledge Transfer Center West (WTZ West), the Drug Discovery Seminar Series has been organized and hosted by the department of Research Services and Innovation in cooperation with the Division of Virology. The aim of this series of seminars is to present the value chain of pharmaceuticals. The seminar series should outline industrial research and work areas.

The first seminar of this series discussed a present Topic „**COVID-19 Vaccine Development**“. **Dr. Knut Elbers** (CEO, Viratherapeutics GmbH) talked about the pharma perspectives on rapid COVID-19 vaccine developments. The seminar can be rewatched **HERE**.

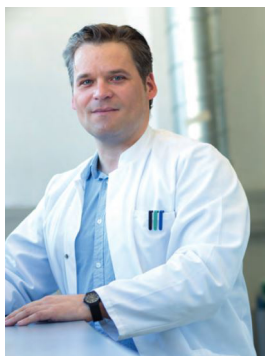

Registration and costs:

Registration is possible online at:

www.meduni-ibk.at.

Please register at least one day before the seminar. You will get the link to enter the seminar in the morning of the seminar day.

The event takes place in the course of the WTZ Knowledge Transfer Centre West and is free of charge.

Scientific director and moderator of the Drug Discovery Seminar Series:

Dr. Guido Wollmann
Head of Christian Doppler Laboratory for Viral Immunotherapy of Cancer
Division of Virology
Medical University Innsbruck

We look forward to your participation!

Upcoming Seminars

Drug Discovery Seminar Nr. 2: Development of Novel Cancer Therapies

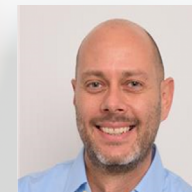

In this online seminar, Sebastian Carotta, PhD will point out key challenges of „drug hunters“ and will inform about the individual steps from identifying and selecting a target to developing a potent cancer therapy. Also, the reason why rational combination therapies are key to induce a potent anti-tumor response, will be discussed.

Speaker:

Sebastian Carotta, PhD (Scientific Director, Research, Cancer Cell Signaling, Böhringer Ingelheim)

When: 26.04.2021, 16:00 – 17:30

Where: Online (Webex)

Picture: Böhringer Ingelheim

Drug Discovery Seminar Nr. 3: Translational Medicine and Clinical Pharmacology in Drug Development

In this seminar Hanny Musa and Sven Wind will provide an overview of the role translational medicine and clinical pharmacology play in drug development and how the two disciplines overlap to ensure a streamlined path from target discovery to marketed product.

Speaker:

Dr. Hanny Musa (Senior Biomarker Integrator, Boehringer Ingelheim)

Dr. Sven Wind (Senior Clinical Pharmacologist, Boehringer Ingelheim)

When: 25.05.2021, 16:00 – 17:30

Where: Online (Webex)
