FWF Funding Programs & New Guidelines

Dr. María Teresa Pérez Mediavilla

MEDIZINISCHE UNIVERSITÄT INNSBRUCK

Agenda:

- Presentation of the FWF funding portfolio
- Overview of the changes in the guidelines
- Key data on the most common FWF programs
- Formal requirements for the application

Research Service Department

FWF
Der Wissenschaftsfonds.

MEDIZINISCHE UNIVERSITÄT INNSBRUCK

The Austrian Science Fund FWF is Austria's central institution for the **promotion of basic research**

Every researcher will submit an FWF application at some point

On average, MUI researchers submit 100 FWF applications each year

Research Service Department

The FWF funding portfolio is divided into 3 pillars

MEDIZINISCHE UNIVERSITÄT INNSBRUCK

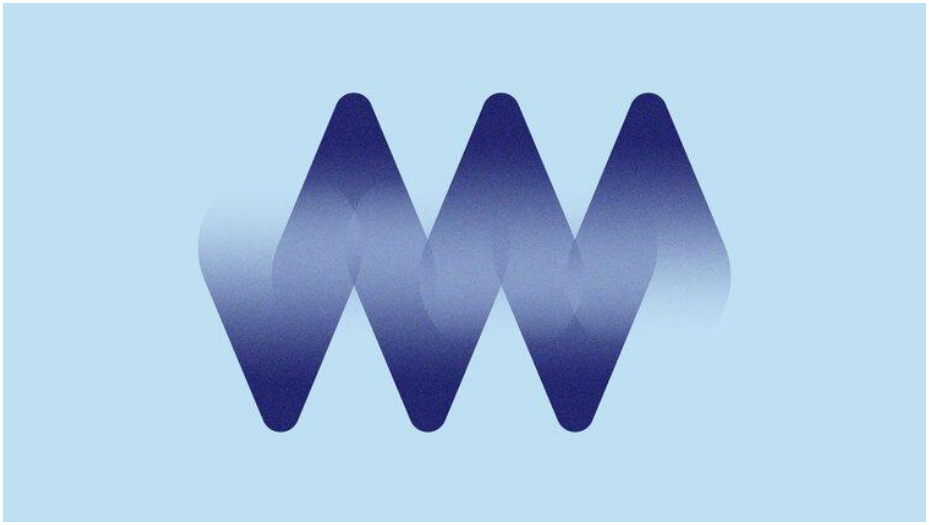

Discover new things
– Projects

Nurturing talent
– Career Programs

Collaborate
– Cooperations

MEDIZINISCHE UNIVERSITÄT INNSBRUCK

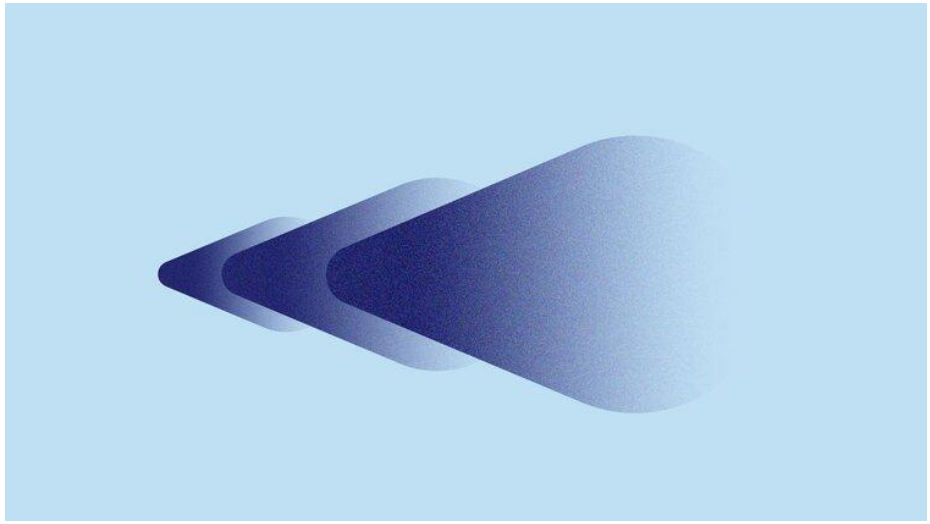

The FWF funding portfolio: PROJECTS

- Principal investigator projects
- Principal investigator projects international
- Clinical Research
- 1000 Ideas

MEDIZINISCHE UNIVERSITÄT INNSBRUCK

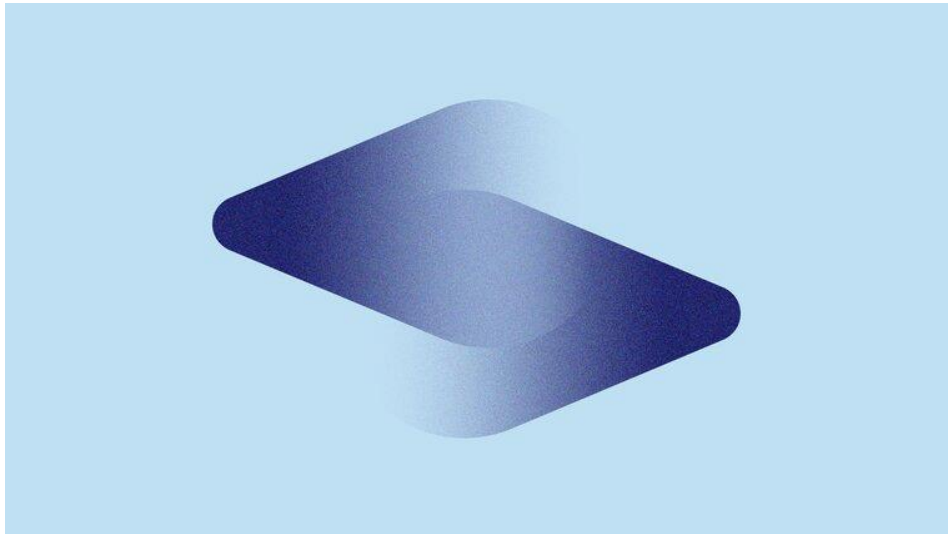

The FWF funding portfolio: CAREERS

- ESPRIT
- ASTRA Awards
- Schrödinger Scholarship
- doc.funds/doc.funds connect

MEDIZINISCHE UNIVERSITÄT INNSBRUCK

The FWF Funding portfolio-COLLABORATIONS

- Specialized Research Groups (SFG)
- Connecting Minds
- International: Multilateral Initiatives

MEDIZINISCHE UNIVERSITÄT INNSBRUCK

NEW Application and Cost Guidelines:

The new application and cost guidelines will be available starting **November 16, 2026**, and will apply to all applications created on the **elane** portal **on or after** that date.

The following **transitional provision** also applies: Applications created in elane **on or before November 15, 2026**, may still be finalized and submitted by December 15, 2026, under the provisions of the previous guidelines.

As of December 16, 2026, only the new guidelines will apply, regardless of when the application was submitted.

MEDIZINISCHE UNIVERSITÄT INNSBRUCK

NEW Application and Cost Guidelines:

- **Project duration:** For Principal Investigator and Clinical Research projects the duration will be a minimum of two to a maximum of five years. The new minimum duration also applies to Principal Investigator Projects International.

- **Funding volume:** The funding range for Principal Investigator and Clinical Research projects will be a minimum of €200,000 and a maximum of €1 million. The maximum funding amount depends on the project duration (up to €200,000/year; annual allocation remains flexible).

MEDIZINISCHE UNIVERSITÄT INNSBRUCK

NEW Application and Cost Guidelines:

- **Application length:** The project description will be limited to a maximum of 15 pages; a maximum of three pages will be available for the justification of costs (Annex II). For **international** Principal Investigator Projects, an additional three pages per international project partner may be included.

- **Resubmissions:** A three-month waiting period applies before a rejected application can be resubmitted. Applications that are rejected for grounds C3 or C4 may then be resubmitted **only once**. If the resubmission is also rejected for grounds C3 or C4, a 12-month ban applies. The new restrictions on resubmissions will apply across all programs (except for collaborative programs).

NEW Application and Cost Guidelines:

MEDIZINISCHE UNIVERSITÄT INNSBRUCK

- **Limit on the number of applications/projects:** The total number of FWF open applications as well as approved or ongoing projects per researcher will be capped at a maximum of three. This will also apply to all consortium members in collaborative programs (except for doc.funds and doc.funds.connect). Mentors will only be able to support a total of two ESPRIT programs at the same time.

MEDIZINISCHE UNIVERSITÄT INNSBRUCK

NEW Application and Cost Guidelines:

- **Research Security: Mandatory risk assessment**
  The application guidelines will be expanded to include instructions on research security. A mandatory risk assessment form must be uploaded with every application.
  The risk assessment is based on a questionnaire and automatically results in a green, yellow, or red classification. In the event of a yellow or red classification, the research institution must confirm **before the start of the project** that appropriate risk mitigation measures have been put in place. The risk classification is not transmitted to reviewers and does not affect the scientific review process.

MEDIZINISCHE UNIVERSITÄT INNSBRUCK

NEW Application and Cost Guidelines:

- **Responsible use of AI:** In general, the use of AI in the preparation of applications is permitted. However, full responsibility for the content and quality of the application remains with the applicant. Content generated by AI must be thoroughly verified, as 'hallucinated' references, for example, may be considered a breach of good scientific practice and result in sanctions.

- **New cost guideline for equipment (including small items > € 1,000,00).** In the future, equipment valued at or above this amount can only be billed via depreciation. Only the project-related share of usage is eligible for funding. Research institutions must continue to confirm that no comparable equipment is available or shareable within a reasonable distance, and that possibilities for third-party financing have been verified

Research Service Department

MEDIZINISCHE UNIVERSITÄT INNSBRUCK

The FWF funding portfolio -

A single researcher submits:

- Principal Investigator Projects
- Clinical Research Projects
- Schrödinger - Career
- ESPRIT Careers
- ASTRA - Career

MEDIZINISCHE UNIVERSITÄT INNSBRUCK

• Principal Investigator Projects (I)

Target group: Scientists of all disciplines in Austria

Objective : To promote individual projects in the field of not-for-profit basic scientific research

Requirements:

❖ High scientific quality at an international level

❖ Possibility of applying for personnel costs for the project principal investigator (own position).

❖ No age limit

MEDIZINISCHE UNIVERSITÄT INNSBRUCK

• Principal Investigator Projects – (II)

Application: FWF's electronic application portal (elane) - PROFI

- ongoing, no submission deadlines
- in English

Duration: max. 4 years/ min. 2 until max. 5 years (12 months cost-neutral extension possible)

Amount: project-specific costs (personnel, travel and material…)

Standard approx. € 450,000/project. New guidelines min. of € 200,000/project and max € 200,000/year.

MEDIZINISCHE UNIVERSITÄT INNSBRUCK

• Principal Investigator Projects – (III)

The number of reviews depends on the amount of the requested costs.

Current guidelines

Grant amount	Number of reviews
450,000 Euro	Min. 2 reviews
650,000 Euro	Min. 3 reviews
850,000 Euro	Min. 4 reviews

Upcoming guidelines

Grant amount	Number of reviews
500,000 Euro	Min. 2 reviews
800,000 Euro	Min. 3 reviews
1,000,000 Euro	Min. 4 reviews

Processing time: 4-6 months

Decision-making: International peer review

Approval rate (2025): 28.1%

• Clinical Research Projects – Key Facts (I)

MEDIZINISCHE UNIVERSITÄT INNSBRUCK

Target group: Every scientist working clinically in Austria or cooperating with a clinic with appropriate qualifications, sufficient work capacity and access to the necessary infrastructure

Objective :

- ❖ Funding is provided for precisely defined projects in the field of clinical research that are limited in time and money in terms of objectives and methodology. The results of the projects must not be linked to any direct commercial interests.
- ❖ The studies must involve patients or healthy study participants and aim to gain scientific knowledge and insights to improve clinical practice or optimize diagnostic and therapeutic procedures.

Requirements:

- ❖ High scientific quality at an international level
- ❖ Possibility of applying for the salary of the principal investigator
- ❖ Attach a positive ethics vote or proof of basic approval by the relevant ethics committee

MEDIZINISCHE UNIVERSITÄT INNSBRUCK

• Clinical Research Projects – Key Facts (II)

Application: FWF's electronic application portal (elane) – PROFI ongoing, no submission deadlines

- in English

Duration: max. 4 years/ min. 2 until max. 5 years (12 months cost-neutral extension possible)

Amount: project-specific costs; New guidelines min. of € 200,000/project and max € 200,000/year.

The number of necessary expert opinions is based on the amount of the requested costs (Slide 20)

Processing time: 4-6 months

Decision-making: International peer review

Approval rate (2025): approx. 16.7 %

MEDIZINISCHE UNIVERSITÄT INNSBRUCK

• 1000 Ideas Program – Key Facts (I)

Target group: Qualified researchers (established or at the beginning of their careers, usually with a doctorate) working at Austrian research institutions

Objective :

- ❖ Promoting **risk-taking** and **creativity** and facilitating the development of **new, innovative** areas of research
- ❖ Focusing on **original, high-risk, or transformative** research at an early stage, which may be too early to have a very good chance of receiving funding through existing grant programs due to unconventional design, lack of validation data, and/or high risks associated with it
- ❖ Engage with **visionary** research ideas that are interdisciplinary and/or not yet the subject of debate in academic research and/or society

• 1000 Ideas Program – Key Facts (II)

MEDIZINISCHE UNIVERSITÄT INNSBRUCK

Requirements

- ❖ International scientific publications
- ❖ At least 50% employment of the principal investigator at a research institution during the duration of the project, confirmed by the research institution. The financing of this employment may not be provided by funds from the 1000 Ideas Program
- ❖ The PI must have a PhD/MD at the time of submission
- ❖ Anonymous submission, i.e. the identity, career level of all participating researchers and Austrian and international cooperation partners or names of Austrian or international research institutions may not be mentioned in the application

• 1000 Ideas Program – Key Facts (III)

MEDIZINISCHE UNIVERSITÄT INNSBRUCK

Application: FWF's electronic application portal (elane) - PROFI

- Submission deadline: once a year
- **Duration:** min. 6, max. 24 months

Amount: Min. € 50,000, max. € 175,000 (personnel and consumables)

PI own position (max. 50%) No funding for PhD students.

Decision: FWF Board Meeting

Decision-making:
•Double-blind selection process
•Review by the international jury of the 1000 Ideas Programme

Approval rate: < 10%; approx. 20 applications

MEDIZINISCHE UNIVERSITÄT INNSBRUCK

• Schrödinger Programme – Key Data (I)

Target group: highly qualified postdocs from all disciplines at the beginning of their scientific careers.

Objective:

- ❖ Participation in foreign research institutions and projects and thus **acquisition of experience abroad** in the postdoc phase (strengthening career prospects),
- ❖ the opening up **of new** scientific fields, **new** scientific approaches, methods, procedures and techniques,
- ❖ a contribution to the **development of science in Austria**,
- ❖ the transfer of **know-how** to the Austrian research landscape

MEDIZINISCHE UNIVERSITÄT INNSBRUCK

• Schrödinger Program – Key Data (II)

Requirements:

- ❖ Completed doctorate
- ❖ International scientific publications (**min. two in the last 5 years**)
- ❖ Invitation letter from the foreign research institution
- ❖ When applying for a return phase: confirmation from the domestic research institution

Duration: Period abroad: 10-24 months; Return phase: max. 12 months (depending on the duration of the period abroad)

Amount: Scholarship abroad - € 45,900 to € 63,400 per year

Return phase: Senior postdoc salary (employment contract) and project-specific costs up to €15,000 per year

MEDIZINISCHE UNIVERSITÄT INNSBRUCK

• Schrödinger Program – Key Data (III)

Application: FWF's electronic application portal (elane)

- ongoing, no submission deadlines
- in English

Processing time: 4-5 months

Decision-making: International peer review

Approval rate (2025): 39,2 % !!

MEDIZINISCHE UNIVERSITÄT INNSBRUCK

• ESPRIT Program – Key Facts (I)

Target group: highly qualified postdocs from all disciplines at the beginning of their scientific careers

Objective:

- ❖ the promotion of excellent, innovative research,
- ❖ retaining, attracting and regaining outstanding scientists and thus strengthening Austrian research institutions,
- ❖ the promotion of excellent women in science,
- ❖ career and competence development (development/establishment of an independent research profile on the basis of an own research project),
- ❖ Strengthening career prospects (increasing competitiveness through publications, cooperations and visibility).

MEDIZINISCHE UNIVERSITÄT INNSBRUCK

• ESPRIT Program Key Facts (II)

Requirements

- Completed doctorate (no longer than 5 years) New guidelines max. 4 years!
- International scientific publications
- Mentor

Duration: 36 months (non-renewable)

Amount: salary of senior post-doc + project-specific costs 15,000 EUR /year (lump sum) or up to a maximum of 25,000 EUR /year (with justification)

Application: FWF's electronic application portal (elane)

- ongoing, in English

Processing time: approx. 4 months

Decision-making: International peer review

Approval rate: approx. 29 %

MEDIZINISCHE UNIVERSITÄT INNSBRUCK

• ASTRA Awards – key data (I)

Target group: **successful, internationally visible scientists from** all disciplines who have already worked **independently**

Objectives:

❖ Promoting excellent, innovative research, among other things by developing or establishing new research fields/approaches

❖ Retaining and attracting internationally visible scientists

❖ Promoting excellent women in science

❖ Consolidation of project leaders as independent scientists and qualification for academic leadership positions, especially professorships

❖ Long-term career prospects through integration of scientists and their research areas at the research institutions

MEDIZINISCHE UNIVERSITÄT INNSBRUCK

• ASTRA Awards – key data (II)

Requirements:

❖ Appropriate qualification of the applicant to lead the research project.

❖ Doctorate: The date of the defense or final examination must be at least 2 to a maximum of 9 years ago on 30 September of the submission year. New guidelines min. 4 years to a max of 8 years!

❖ Persons who hold a permanent professorship (or an equivalent management position at a non-university research institution) at the time of application or who have already accepted an appointment to such a professorship are not eligible to apply.

Funding period and funding amount:
Minimum € 500,000 to a maximum of € 1 million for five years

Tenure package (€ 200,000) for female ASTRA principal investigators who receive a position with a commitment to a permanent contract (e.g. tenure track or professorship) within the first three years of the project period

MEDIZINISCHE UNIVERSITÄT INNSBRUCK

• ASTRA Awards – Key Data (III)

Application: FWF's electronic application portal (elane) - PROFI

- Submission deadline: once a year (September)
- English

Award:

- Board meeting of the FWF based on the recommendation of an international jury; the recommendations are made on the basis of an international review and a hearing.
- Half of the ASTRA awards are awarded to women.
- Merit awards (projects presented at the hearing that do not receive the ASTRA award)

Approval rate:

Expected 18 prizes per call (< 10%)

- **FWF Coaching workshop in Innsbruck**

MEDIZINISCHE UNIVERSITÄT INNSBRUCK

When: 26 January 2027

Where: Adlers Hotel Innsbruck, Brunecker Str. 1, 6020 Innsbruck

Registration e-Mail to sc-forschung@i-med.ac.at

Registration deadline: 11 January 2027

Registration fee: € 140

Reimbursment rule:
First tranche: 50 % of the registration fee after proven attendance to the workshop. A 100% reimbursement is possible if a FWF proposal gets submitted within 6 months after attending the workshop

MEDIZINISCHE UNIVERSITÄT INNSBRUCK

Formal requirements for the application

According to the *third-party funding Guidelines of the Medical University of Innsbruck: 19 December 2014 and amendment 11 July 2024)* all applications for third party funding must be notified to the University before their submission to the funding agency.

Since 01 September 2025, this notification must be made via the electronic project file (Doxis).

Advantage. RESEARCH
BONUS

MEDIZINISCHE UNIVERSITÄT INNSBRUCK

According to University law (UG 2002), there are:

- **Funding "ad personam" (according to §26)**
- **Project funding via research institutions (PROFI according to §27)**

In both cases, the FWF requires a declaration of consent from the research institution

Herzlich willkommen bei elane, dem elektronischen Antragsportal des FWF!

Auf dieser Seite haben Sie die Möglichkeit, Anträge beim FWF elektronisch einzureichen. Bitte beachten Sie, dass elane vorläufig ausschließlich für die unter "Verfügbare Förderungskategorien" genannten Förderungskategorien verfügbar ist. Eine Erweiterung um weitere Förderkategorien ist in Planung.

Sollten Sie noch keine Zugangsdaten haben, registrieren Sie sich bitte.

Die Einreichung und der Vertragsabschluss für bestimmte Förderungsprogramme (Forschungsgruppen, SFB, 1000 Ideen Programm, doc.funds, #ConnectingMinds) erfolgt bereits durch die Forschungsstätten. Die Anlage des Forschungsantrages für diese Programme durch die KoordinatorInnen erfolgt ebenfalls im elane. Nach erfolgter Zuordnung des Forschungsantrages zur Forschungsstätte bekommt diese einen entsprechenden Hinweis und kann den Einreichprozess starten.

Wenn Sie bereits registriert sind, können Sie sich hier anmelden:

Einverständniserklärung der Forschungsstätte der Antragstellerin/des Antragstellers

Ich bin damit einverstanden, dass der meine Forschungsstätte betreffende Teil des obenstehenden Forschungsvorhabens an der von mir geleiteten Forschungsstätte unter Verwendung ihrer gesamten Infrastruktur durch alle im Projekt involvierten Personen durchgeführt wird.

Sämtliche Voraussetzungen (baulicher Art, Energieversorgung, Klimatisierung etc.) für die Aufstellung und den Betrieb der im gegenständlichen Forschungsvorhaben beantragten Geräte sind an der Forschungsstätte gegeben.

Die am im Antrag beschriebenen Forschungsvorhaben Mitarbeitenden haben das Recht, eigene wissenschaftliche Arbeiten, die aus dem Projekt resultieren, einschränkungslos zu veröffentlichen. Lediglich bezüglich des Zeitpunkts der Veröffentlichung können zur Vermeidung einer neuheitsschädlichen Wirkung Einschränkungen vorgenommen werden. Drei Monate nach der Mitteilung der Ergebnisse an die Forschungsstätte kann eine Veröffentlichung aber jedenfalls erfolgen. Im Fall des Aufgriffs durch den Dienstgeber verlängert sich diese Frist bis ein entsprechender Schutz für die Ergebnisse erwirkt werden konnte. Den Dienstgeber trifft die Pflicht, diesen ohne schuldhafte Verzögerung zu beantragen.

Über die Art der Verwendung der an die Forschungsstätte fließenden Projektmittel entscheidet die/der ProjektleiterIn. Ausschließlich auf ihre/seine Anweisung hat sie zu erfolgen.

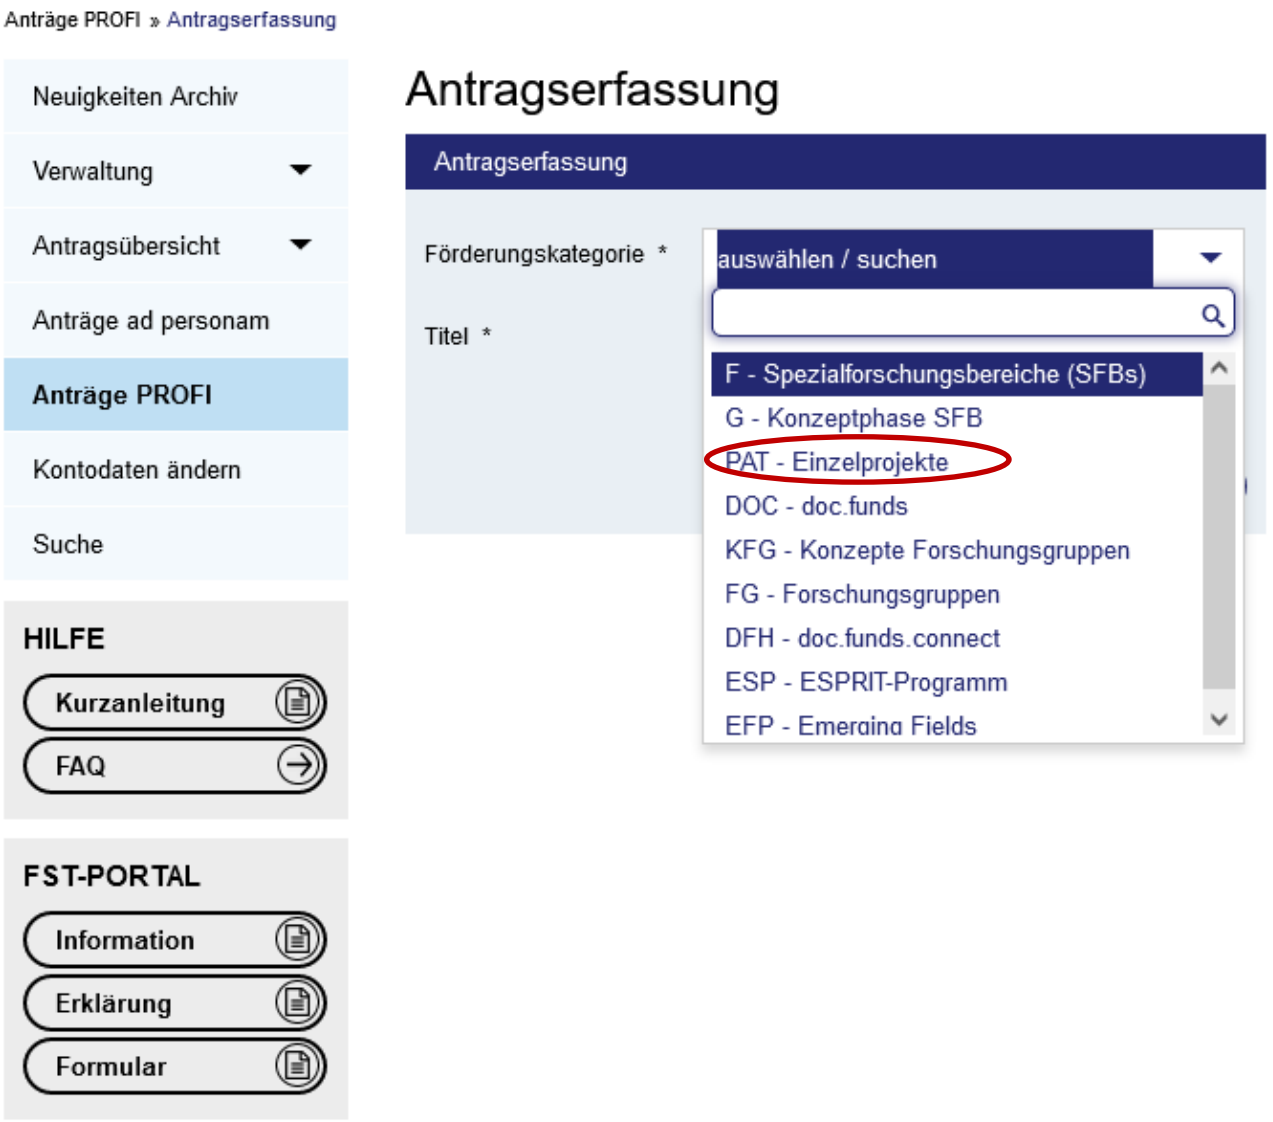

Die an der Forschungsstätte beschäftigten, vom FWF finanzierten ProjektmitarbeiterInnen sind im Ausmaß ihrer Beschäftigung ausschließlich im Projekt einzusetzen. Die ProjektleiterIn entscheidet über ihren Einsatz und ist für die Arbeit im Projekt die einzig fachlich weisungsberechtigte Person. Von anderer Stelle der Forschungsstätte gehen keine fachlichen Weisungen an die ProjektmitarbeiterInnen, die im Widerspruch zur Arbeit am Projekt stehen oder die Durchführung des Projekts in irgendeiner Weise behindern.

Ort, Datum	Unterschrift der Leiterin/des Leiters der Forschungsstätte bzw. der von der Forschungsstätte zur Unterzeichnung bevollmächtigten Person

Stempel der Forschungsstätte
