Career Position in accordance with § 99 (5) Universities Act (tenure track) for Genetics of Complex Genome Regions

at the Institute of Genetic Epidemiology
(full-time position)

The Medical University of Innsbruck, located in the heart of the Austrian Alps, is the largest and most important medical research and education facility in the West of Austria. We currently teach and train over 3,300 students in six Bachelor-, Master- and Doctoral Programs, most of them in Medicine. A dedicated staff of more than 2,100 employees covers all relevant fields from basic research to the clinical sciences.

We offer qualified candidates a tenure track position according to the § 99 (5) Austrian Federal Act on the Organisation of Universities and their Studies (Universities Act 2002 – UG) and agreements based on rules laid down in a general contract for employees of Austrian Universities ('Universitätskollektivvertrag') as announced in: [Mitteilungsblatt der Medizinischen Universität Innsbruck vom 12.06.2019, Studienjahr 2018/2019, 45. Stk., Nr. 177](#). More details in English are available upon request.

Your profile:

Requirements:

- PhD or a comparable qualification
- excellent research and publication record
- potential to head an independent scientific research group
- experience in the conception, acquisition and management of third-party funded research projects
- teaching experience as well as the willingness to be involved in the further development of medical studies
- willingness to participate in interdisciplinary and translationally oriented research
- extensive experience with DNA analysis, sequencing technologies (Sanger, Next-Generation-Sequencing, Third Generation sequencing) and advanced genotyping technologies
- experience in the molecular analysis of genome regions with complex structures (dark genome regions).
- excellent understanding of genetic-epidemiological procedures, ability to independently perform statistical and bioinformatics analyses (association studies, sequencing data analysis, biological and genetic databases)

Your main tasks:

- the establishment of a research group in the field of molecular analysis of complex genome regions
- innovative further development of the research area Genomics of Lipoprotein(a)
- acquiring national und international third-party funding and leading the respective studies
- teaching and supervising students in the programs of the University

We offer:

- a competitive start-up package including guaranteed annual base funding
- a varied and largely independent job in a highly attractive work and social environment in a most liveable city
- a dynamic research environment
- numerous further education and development opportunities
- support through central service facilities
- various attractive additional company benefits (including but not limited to excellent support through our service-oriented administration, childcare support, dual career consultation, and an inhouse pension fund in addition to the statutory social insurance)

The current position (full-time employment) commences with a 6-year contract based on a mutually accorded qualification agreement. If the qualification goals are met following a positive evaluation, the contract can be extended indefinitely with the job title of 'associate professor'.

A salary based on group B1 (or A2 after fulfillment of a qualification agreement based on a positive evaluation) of the collective contract ('Universitätskollektivvertrag') for Austrian university employees.

Application:

The complete application documents (see Application Guidelines under: <https://www.i-med.ac.at/karriere/laufbahn.html>) must be sent digitally (as pdf files) in German or English to the following e-mail address: laufbahnprofessur@i-med.ac.at

Deadline for submissions is **Friday, 23rd April 2021**

Non-EU citizens must fulfil the relevant Austrian legal requirements regarding residence and work permits.

Applicants are not entitled to compensation for travel expenses with reference to this tender.

The Medical University of Innsbruck is an equal opportunity employer. We seek candidates who embrace and reflect diversity and encourage minorities/women/individuals with disabilities to apply.

In case of inconsistencies between the German and the English versions of this tender, the legally binding version is the German one.
