

# Tenure Track Position according to § 99 (5) Universities Act for Computational & Digital Psychiatry

at the University Hospital for Psychiatry I of the Medical University of Innsbruck  
(full-time position)

The Medical University of Innsbruck, located in the heart of the Austrian Alps, is the largest and most important medical research and education facility in the West of Austria. We currently teach and train over 3,600 students in seven Bachelor-, Master- and Doctoral Programs, most of them in medicine. A dedicated staff of more than 2,200 employees covers all relevant fields from basic research to clinical sciences.

The successful applicant initially concludes an employment contract for a fixed term of six years and, following a positive outcome of the procedure, a qualification agreement. Once it has been established that the qualification agreement has been fulfilled on the basis of a positive evaluation, the contract is converted into an employment contract for an indefinite period.

## Your profile

### Requirements:

- PhD or comparable qualification relevant to the field
- proof of completion of specialist training in psychiatry and psychotherapeutic medicine, as well as proof of meeting the requirements for registration in the medical register of the Austrian Medical Association
- excellent research and publication activity in the field of Computational & Digital Psychiatry
- experience in the conception, acquisition and management of third-party funded research projects
- academic teaching experience as well as the willingness to get involved in teaching activities and their further development
- willingness to participate in interdisciplinary and translationally oriented research
- potential to head an independent scientific research group in the field of clinical psychiatry, digital health/digital phenotyping, and computational modeling & AI
- experience in the field of AI methodology specifically for mental health
- experience with digital biomarkers based on everyday interactions
- german language skills, minimum level B2 according to the European reference framework

### Your main task:

- academic teaching and supervising students within the different university programs
- the establishment of a research group in the field of Computational & Digital Psychiatry
- acquisition and management of nationally and internationally funded research projects
- collaboration with the Faculty of AI and Scientific Computing in Medicine (AISCM) at the Medical University of Innsbruck
- establishment of a regional center of excellence for AI in mental health
- strengthening the Medical University of Innsbruck's position within the international neurotechnology and AI network
- participation in university committees

### We offer:

- a competitive start-up package including guaranteed annual base funding
- a varied and largely independent job in a highly attractive work and social environment in a most liveable city
- a dynamic research environment
- numerous further education and development opportunities
- support through central service facilities
- various attractive additional company benefits (including but not limited to excellent support through our service-oriented administration, childcare support, dual career consultation, and an inhouse pension fund in addition to the statutory social insurance)

The current position (full-time employment) commences with a 6-year contract based on a mutually accorded qualification agreement. If the qualification goals are met following a positive evaluation, the contract can be extended indefinitely with the job title of 'associate professor'.

A salary based on group B1 (or A2 after fulfilment of a qualification agreement based on a positive evaluation) of the collective contract ('Universitätskollektivvertrag') for Austrian university employees.

## **Application**

The complete application documents (see Application Guidelines under: <https://www.i-med.ac.at/karriere/laufbahn.html>) must be sent digitally (as pdf files) in German or English to the following e-mail address: [tenu-retrack@i-med.ac.at](mailto:tenu-retrack@i-med.ac.at)

Deadline for submissions is 25.02.2026

Non-EU citizens must fulfil the relevant Austrian legal requirements regarding residence and work permits.

Applicants are not entitled to compensation for travel expenses with reference to this tender.

The Medical University of Innsbruck is an equal opportunity employer. We seek candidates who embrace and reflect diversity and encourage minorities/women/individuals with disabilities to apply.

In case of inconsistencies between the German and the English versions of this tender, the legally binding version is the German one.
