

A 3 year PhD student position is now available at the Department of Neurology (Clinical Neurobiology).

Requirements for the position: a completed diploma (on a master level) in medicine or biology (or related subjects within the natural sciences). We expect basic knowledge of cell culture, strong interest in neuroscience and motivation to perform a research project on Neuroinflammation in Parkinsonism. You will join the research team of the Section of Clinical Neurobiology and will have the chance to enrol for the PhD Program in Neuroscience at the Innsbruck Medical University.

Please send your application (letter of intent; CV; proof of your degree) for the position by email to nadia.stefanova@i-med.ac.at
