
PhD Program

Molecular Cell Biology and Oncology

Medical University Innsbruck

Students with a keen interest in biomedical sciences and a strong commitment to work in interdisciplinary research fields are invited to apply for one of our **16 vacant doctoral studentships**.

This competitive PhD program in *Molecular Cell Biology and Oncology* run by Innsbruck's Universities and financed by the *Austrian Science Fund* aims to attract highly talented students from across the world. Students accepted into the program will receive comprehensive and state-of-the-art research training in a stimulating research environment.

Research topics include:

- Ca^{2+} channel function
- Kinase signaling
- Tumor immunology
- Cell death
- Autophagy
- Cell cycle regulation
- Steroid receptors
- Tumor biology
- OMICS techniques
- Bioinformatics

Candidates must hold a master's degree or equivalent in the biological sciences, medicine, pharmacy or physics, or anticipate receiving it early in 2015. Excellent command of English is indispensable.

Applications must be received by **January 10th 2015!**

For further information and requirements please visit

<http://www.mcbo.at>

The top candidates will be interviewed in Innsbruck in Jan/Feb 2015. Research is expected to start in spring 2015.
